NATIONAL FEDERATION OF STATE HIGH SCHOOL ASSOCIATIONS (NFHS)
INTERNATIONAL FEDERATION OF STATE HIGH SCHOOL ASSOCIATIONS

VISION

• The National Federation of State High School Associations (NFHS) is the national leader for education-based high school athletics and activities, which prepare tomorrow’s leaders for the next level of life through innovative programs, healthy participation, achievement, and development of positive relationships.

www.nfhs.org
MISSION

• The National Federation of State High School Associations (NFHS) serves its members by providing leadership for the administration of education-based high school athletics and activities through the writing of playing rules that emphasize health and safety, educational programs that develop leaders, and administrative support to increase participation opportunities and promote sportsmanship.
NFHS (located in Indianapolis, IN – Est. 1920):

- National leadership organization for high school sports and fine arts activities;
- National authority on interscholastic activity programs.
- Conducts national meetings;
- Sanctions interstate events;
- Produces national publication for high school administrators;
- National source for interscholastic coach training and national information center.
The NFHS Rules Review Committee is chaired by the chief operating officer and composed of all rules editors. After each committee concludes its deliberations and has adopted its recommended changes for the subsequent year, such revisions will be evaluated by the Rules Review Committee.
NEW NFHS RULES APP

- Rules App features:
  - Searchable
  - Highlight notes
  - Bookmarks
  - Quizzes for all sports
  - Easy navigation
  - Immediate availability
  - Free to paid members of the NFHS Coaches and Officials Associations
  - [www.nfhs.org/erules](http://www.nfhs.org/erules) for more information
INTRODUCTION

- Robbie Lindeman, Director of Athletics
- rlindean@fhsaa.org or 352-372-9551 ext. 260

- Responsibilities include:
  - **Fall**—Administrator for Girls Volleyball
  - **Winter**—Administrator for Wrestling
  - **Spring**—Administrator for Baseball
IMPORTANT FHSAA DATES

First practice/assessment date (Week 20) – Nov. 11

Match schedules due (Week 29) – Nov. 18

Preseason classic tournaments (Week 21-22) – Nov. 22-30

First regular season playing date (Week 23) – Dec. 2

Roster due on Home Campus (Week 23) – Dec. 2

Last regular season playing date (Week 33) – Feb. 15
STATE SERIES DATES

- District Dual Deadline Date – Saturday January 11, 2020
- Regional Dual Tournament – Thursday January 16, 2020
- Dual Wrestling State Championships – January 24-25, 2020

- IBT District Tournament- Feb 17-22, 2020
- IBT Regional Tournament- Feb 28-29, 2020
- IBT State Championships- March 6-7, 2020
FHSAA WRESTLING
REGIONAL HOST

- 1A-1 Wakulla
- 1A-2 Palm Bay
- 1A-3 Lemon Bay
- 1A-4 Jensen Beach

- 2A-1 Chiles (Tallahassee)
- 2A-2 Brandon
- 2A-3 Charlotte
- **2A-4 HOST NEEDED**

- 3A-1 Fleming Island
- 3A-2 Osceola (Kissimmee)
- 3A-3 Seminole Ridge
- **3A-4 HOST NEEDED**
FHSAA COACHES MANUAL

3 courses that are required for ALL coaches and student athletes:

*Student athletes may view as a group. An attendance record must be kept for all athletes present and provided to FHSAA upon request.

1. Concussion in Sports
2. Heat Illness Prevention
3. Sudden Cardiac Arrest

If you do have an account click Sign in in the top right

ONCE YOU ARE IN:

Click link to courses on the top dash
Type in “course name” in search bar
Hover the mouse over the course and click “view course”
Select Florida in the dropdown
Click order course
Click Checkout
Agree and hit Continue
Go to dashboard link up top and view the course

*Repeat these steps for all 3 courses
(Order all 3 courses and you can view them in the “dashboard” home page)
Female contestants wearing a one-piece singlet shall also wear a form-fitted compression suitable undergarment that completely covers their breasts.
RULE 4-1-1a

- Change:
- ART. 1 . . . A legal uniform consists of:
  - a. a one-piece singlet cut...between the armpit and belt line. A suitable undergarment, which completely covers the buttocks and groin area, shall be worn under a one-piece singlet. Any other undergarment worn under the one-piece singlet which extends beyond the inseam shall be tight-fitting and shall not extend below the knee.
Rule Change

4-1-1a

- The one-piece singlet may be worn with full-length tights with stirrups. Any other undergarment worn under the one-piece singlet which extends beyond the inseam shall be tight-fitting and shall not extend below the knee. The one-piece singlet shall be school-issued.

- NOTE: Female contestants wearing a one-piece singlet shall wear a form-fitted compression suitable undergarment that completely covers their breasts.
Rule Change

Rationale:

This rule proposal reinforces the importance of how wrestlers should be required to be properly attired on the mat during competition, regardless of gender. Currently, there was no specific requirement for what a wrestler wears under a singlet. Light colored or white singlets become transparent if an undergarment is not worn underneath. This creates a modesty concern that athletes are revealing more than is appropriate.
A suitable undergarment, which completely covers the buttocks and groin area, shall be worn under shorts designed for wrestling and compression shorts.
RULE 4-1-1b

- Change:
- **ART. 1 . . .** A legal uniform consists of:

  b. Compression shorts or shorts designed for wrestling shall...snaps, buttons or pockets. A suitable undergarment, which completely covers the buttocks and groin area must **shall** be worn under shorts designed for wrestling and **compression** shorts. Shorts designed for wrestling may be worn over the singlet.
RULE 4-1-1b

• Compression shorts or shorts designed for wrestling may be worn with a form-fitted compression shirt. Compression shorts or shorts designed for wrestling shall be school-issued.

Rationale:
This rule now requires a suitable undergarment to be worn under compression shorts. Light colored or white compression shorts become transparent if an undergarment is not worn underneath.
A suitable undergarment, which completely covers the buttocks and groin area, shall be worn under a one-piece singlet. Any other undergarment worn under the one-piece singlet which extends beyond the inseam shall be tight-fitting and shall not extend below the knee.
RULE 4-1-1c NOTE

- **Change:**
  NOTE: Female contestants wearing a one-piece singlet shall wear a suitable undergarment that covers their breasts and minimizes the risk of exposure. All contestants wearing a one-piece singlet shall wear a suitable undergarment which completely covers the buttocks and groin area.
**RULE 4-1-1c NOTE**

**Rationale:**
Female wrestlers are required to wear an undergarment that covers the breasts. By adding additional language to minimize the risk of exposure, it will raise the expectation that the suitable undergarment should provide coverage and support during competition. This rule now requires the contestants to wear a suitable undergarment to cover the buttocks and groin under a singlet. Some light-colored or white singlets become almost transparent and create modesty concerns.
If shoelaces are visible, they shall be secured in an acceptable fashion. Double knotting of the laces is acceptable. If the shoelaces come undone, the penalty would be an automatic stalling call.
Change:

ART. 3 . . . Wrestlers shall wear light heelless wrestling shoes, reaching above the ankles. If the shoes have laces, the laces shall either be taped to the shoe or secured by a locking device on the wrestling shoe in an acceptable fashion. If laces are visible, they shall be secured in an acceptable fashion. If the shoe laces come undone the penalty would be an automatic stalling call.

(NOTE: acceptable secure fashion could be double knotting of the laces)
RULES 4-1-3, 7-6-6D

Rationale:

This rule holds the coach and wrestler accountable to verification that they have come to the mat properly equipped. This also allows the usage of double knotting of the laces as another way to secure the shoes.
Any manufacturer's logo /trademark/ reference that appears on the wrestling ear guards including legal hair covering can be no more than 2-1/4 square inches with no dimension more than 2-1/4 inches and may appear no more than once on ear guards. No additional manufacturer's logo/trademark or promotional reference shall be allowed on the wrestling ear guard.
Rule Change

RULE 4-1-4

- Change:
  - ART. 4 . . . Wrestlers shall wear wrestling ear guards designed by the manufacturer for the sport of wrestling that are rigid and padded, which provide:
    a. adequate ear protection;
    b. no injury hazard to the opponent; and,
    c. an adjustable locking device to prevent it from coming off or turning on the wrestler’s head.
RULE 4-1-4

Any manufacturer's logo/trademark/reference that appears on the wrestling ear guards including legal hair covering can be no more than 2 1/4 square inches with no dimension more than 2 1/4 inches and may appear no more than once on ear guards. No additional manufacturer's logo/trademark or promotional reference shall be allowed on the wrestling ear guard.
Rationale:
The available space on ear guards has become a blank canvas for non-school issued or non-approved promotional logos or references. The intent of NFHS Rule 4 is to maintain the sanctity of the wrestler's uniform and ear guards by not allowing impractical images that detracts from school-issued equipment and uniforms.
The hair in PlayPics A and B is legal.
If hair is longer than allowed (PlayPic A), a legal hair-controlled device such as a rubber band shall be secured so as not to come out readily during wrestling (PlayPic B).
HAIR
RULE 4-2-1

The hair in PlayPic A is legal. A legal hair-controlled device such as a rubber band shall be secured so as not to come out readily during wrestling (PlayPic B).
If hair is longer than allowed, a legal hair-controlled device such as a rubber band shall be secured so as not to come out readily during wrestling (PlayPic A). The hair in PlayPic B is legal.
RULE 4-2-1

- Change:
- **ART. 1 . . .** During competition all wrestlers shall be clean shaven, with sideburns trimmed no lower than earlobe level. Hair, trimmed and well groomed. The hair in its natural state, shall not extend below the top of an ordinary shirt collar in the back; and on the sides, the hair shall not extend below earlobe level; in the front, the hair shall not extend below the eyebrows. (Photos 2-3) A neatly trimmed mustache that does not extend
below the line of the lower lip shall be permissible. If an individual has hair longer than allowed by rule, it may be braided, or rolled if it is contained in a cover so that the hair rule is satisfied. (Photo 4) Physical hair treatment items that are hard and/or abrasive such as (beads, bobby pins, barrettes, pins, hair clips, etc. or any other hair control device) shall not be permitted. A legal hair-controlled device such as rubber band(s) shall be secured so as not to come out readily during wrestling.
RULE 4-2-1

The legal cover shall be attached to the ear guards...at the site. If an individual has facial hair, it must be covered with a face mask. All legal hair covers and face masks will be considered as special equipment. If an individual’s hair is as abrasive as an unshaved face, the individual shall be required to shave the head as smooth as a face is required, or wear a legal hair cover.
Rule Change

**RULE 4-2-1**

Rationale:

The term "well groomed" is extremely subjective and there is no standard to meet such an arbitrary expectation. Hair that is manipulated poses no threat to either wrestler. It is neither abrasive nor cumbersome. However, physical hair treatments do present a risk to either wrestler due to the hardness, texture (sharpness) or abrasiveness and should not be allowed.
During a match, wrestlers shall not wear arm sleeves (PlayPic A) or leg sleeves (PlayPic B) that do not contain a pad.
Rule Change

**RULE 4-3-5**

- Change:
  - ART. 5 . . . Wrestlers **may not wear** wristbands, sweatbands, bicep bands or leg or arm sleeves that do not contain a pad during a match.

**Rationale:**

There is no purpose or function for use of a leg or arm sleeve that does not contain a pad for protection. There is no peer review data or research to support their existence. They are intrusive and do not properly fit all wrestlers.
At weigh in, female contestants shall wear a suitable form fitted compression undergarment that completely covers their breasts.
RULE 4-5-7

- **Change:**
- **ART. 7 . . .** All contestants shall weigh-in wearing a suitable undergarment that completely covers the buttocks and the groin area. Female contestants must also wear a suitable form-fitted compression undergarment that completely covers their breasts. Contestants may wear low cut socks that cannot be removed or added if the wrestlers do not make weight.
Rule Change

RULE 4-5-7

Rationale:

This language requires the use of a foundation garment for female wrestlers. Female wrestlers should wear undergarments that provides appropriate coverage and support.
A takedown shall be awarded when one or both knees of the defensive wrestler are touching the mat beyond reaction time or when the defensive wrestler's legs or torso are controlled and the wrestler's hand(s) touch the mat beyond reaction time.
Rule Change

**RULE 5-25-2**

- Change:
- **ART. 2 . . .** A takedown shall be awarded when one or both knees of the defensive wrestler are touching the mat beyond reaction time or when the defensive wrestler's legs or torso are controlled and the majority of the wrestler's weight is supported by his hands. wrestler's hand(s) touch the mat beyond reaction time. (photo 31)

www.nfhs.org
Rule Change

Rule 5-25-2

Rationale:

This rule change eliminates a double standard that was created when the definition of a takedown was revised last year. So now we have a double standard in the rulebook. To be consistent we need to say that whenever the hand(s) touch the mat they are considered supporting point(s). By removal of the "majority of the wrestler's weight" criteria, we will eliminate the need for the official to make a judgmental call on weight bearing extremities. In addition, the application of our new rule on "supporting points" becomes consistent throughout the rulebook, not just on or around the 28-foot circle.
If the defensive wrestler intentionally goes out of the wrestling area to avoid an imminent scoring situation, it is a technical violation.
RULE 5-27-1a

- **Change:**
- **ART. 1**. . . . There are five types of technical violations. Each is penalized without warning as outlined in Rule 7-3.
  a. Intentionally going out of the wrestling area or forcing an opponent out of the wrestling area to avoid an imminent scoring situation.
Rule Change

RULE 5-27-1a

Rationale:

Now that we have emphasized that pushing or pulling your opponent out of bounds in the neutral position is stalling from last year’s rule changes; we need to clarify fleeing and forcing your opponent out of the wrestling area. By adding this language, it will clarify that intentionally going off the mat or forcing your opponent off the mat to avoid wrestling would be stalling. If it occurred to avoid being scored upon, it would be considered a technical violation. This technical violation has been underutilized for years, and hopefully this will give officials the tools and the confidence to distinguish between it and stalling.
TECHNICAL VIOLATION
RULE 7-3-1

- Change:
- **ART. 1**... Going out of the wrestling area or forcing an opponent out of the wrestling area, by either wrestler at any time as a means of avoiding wrestling an imminent scoring situation, is a technical violation fleeing the mat. Both wrestlers should make every effort to remain inbounds. When the referee feels that either wrestler has failed to make every effort to stay inbounds during an imminent scoring situation, the offending wrestler shall be penalized for fleeing the mat. There can be no technical violation of fleeing the mat if near-fall points have been earned.
TECHNICAL VIOLATION
RULE 7-3-1

Rationale:

The current rule for stalling presents a situational conflict for the official to make one of two calls, fleeing versus stalling for the similar type of action. Fleeing is an automatic point where stalling may be a warning on the first violation and a point on the second violation. This change would allow the referee to only apply the technical violation call of fleeing when the action is related specifically to a scoring situation. All other types of leaving the wrestling area as a means of avoiding wrestling would fall under the rule of stalling.
STALLING RULE 7-6-6d

- **Change:**
  - **ART. 6** . . . It is stalling when either wrestler:
    - Sub-articles a-c remain the same.
    - d. Shoelaces become undone.

**Rationale:**
This rule holds the coach and wrestler accountable to verification that they have come to the mat properly equipped. If shoe laces become undone this impedes the flow of the match and the intent of continual action. This also alleviates the burden on the official to determine if it was intentional and or unintentional.
PENALTIES AND WARNINGS
RULE 8-1-3

- Change:
- **ART. 3 . . .** Penalties and Warnings are cumulative throughout the match. Each infraction has its specific penalty. The penalty for an illegal hold/maneuver, technical violation (except false start or incorrect starting position), unnecessary roughness and wrestler’s unsportsmanlike conduct in the match is awarding the opponent of the offender one match point on the first and second offenses and two match points on the third offense.
A fourth offense shall result in disqualification. The first call for stalling will receive a warning prior to the opponent of the offender being awarded a match point. The first two calls for a false start or incorrect starting position will be receive cautions. Following the two cautions, one match point will be awarded to the opponent of the offender for each subsequent violation. (See Penalty Chart)
Rationale:
Officials need to call stalling more consistently in order to increase the level of aggressive, offensive wrestling. By removing stalling from the progressive penalty sequence, officials will be able to penalize wrestlers more freely without complicating the matter when it is combined with other penalties (locked hands, fleeing, grasping clothing, etc.) Removing the stalling call from the penalty progression will allow officials more freedom to call stalling earlier, more consistently and without hesitation when they feel it is warranted.
WARNING AND PENALTIES FOR STALLING
RULE 8-1-4

Change: New Penalty Chart and new Stalling Penalty Chart

- **ART. 4**. . . Warnings and Penalties for stalling are cumulative throughout the match and are penalized independent of the progressive penalty chart. On the first offense the wrestler will receive a warning. The opponent of the offender will be awarded one match point on the second and third offense, two match points and choice of position on the next restart for the fourth offense. A fifth offense shall result in disqualification. (See Penalty Chart)

Rule Change

WARNING AND PENALTIES FOR STALLING
RULE 8-1-4

Rationale:
Officials need to call stalling more consistently in order to increase the level of aggressive, offensive wrestling. By removing stalling from the progressive penalty sequence, officials will be able to penalize wrestlers more freely without complicating the matter when it is combined with other penalties (locked hands, fleeing, grasping clothing, etc.) Removing the stalling call from the penalty progression will allow officials more freedom to call stalling earlier, more consistently and without hesitation when they feel it is warranted.
When an athlete suffers a suspected injury involving the head neck, cervical column and/or nervous system only (PlayPic A) and an appropriate health-care professional is present (PlayPic B), the referee should give the signal to the timer to indicate evaluation time may be extended to a maximum of 5 minutes.
Rule Change

INJURY TIME
RULES 8-2-4a, 8-2-4b-1, 8-2-4b-2, 8-2-4b-3

Change:
ART. 4 . . .

a. Any contestant who exhibit signs, symptoms or behaviors consistent with a concussion (such as loss of consciousness, headache, dizziness, confusion or balance problems) shall be immediately removed from the match and shall not return to competition until cleared by an appropriate health-care professional. (See NFHS Suggested Guidelines for Management of Concussion in Sports, in Appendix B.)
b. The following modifications to injury time-outs will be used in all competition regarding injuries to the head and neck involving cervical column and/or nervous system:

(1) In the absence of appropriate health-care professional, (physician and/or certified athletic trainer) all injuries to the head and neck involving the cervical column and/or nervous system will be covered by the same time frame as other injuries. (See 5-28-6, 8-2-1)
(2) When appropriate health-care professional(s) are present, they have jurisdiction to extend the allowed time limit to a maximum of five (5) minutes for evaluation of the injuries to the head and neck involving cervical column and/or nervous systems only, at which time the athlete would be required to prepare without delay for continuation or default the match.

(3) A second occurrence of injury to the head and neck involving cervical column and/or central nervous system in the same match shall require the wrestler to default the match.
**INJURY TIME**
**RULES 8-2-4a, 8-2-4b-1, 8-2-4b-2, 8-2-4b-3**

- NOTE: When this provision is used, the time consumed for the injury will in no way affect time used, or available, for other types of injuries.
Rule Change

INJURY TIME RULES 8-2-4a, 8-2-4b-1, 8-2-4b-2, 8-2-4b-3

Rationale:

This rule change allows additional time to evaluate concussions when an appropriate health-care provider is present. If one is not present, the regular injury time is used. It can only be used once to avoid fake injuries. Recovery and blood time are not extended under this new rule. It cannot be used for any other types of injuries. An extension of time to five minutes is reasonable and has been proven to be successful for the last 27 years in a Midwestern state.
The dual meet ends with a tied team score. The tiebreaker went to the fifth criteria, forfeits. Since the home team forfeited more bouts than the guest, the guest wins the dual.
TEAM SCORING
RULE 9-2-2f

• Change:
  • ART. 2 . . . In dual-meet competition, if teams have identical scores, the following team tie-breaking system shall be used to determine the winner.

  • Criteria a-e remain the same.

  • f. The team giving up the least number of forfeits.
  • Criteria shall be re-labeled through q.
TEAM SCORING
RULE 9-2-2f

Rationale:

This rule change maintains that forfeits should not be encouraged by rules that give the forfeiting team an advantage. Teams should be encouraged to put a wrestler on the mat for every weight class - not penalized by the likelihood of giving up scoring events counting against them (criteria H and beyond).
HEAD/NECK/CERVICAL COLUMN
RULE 5-28-6

- Change:
- ART. 6 . . . Head/Neck/Cervical Column. If a contestant is injured and the onsite appropriate health-care professional determines that additional time is needed to evaluate the wrestler’s head, neck and involving the cervical column and/or central nervous system, the wrestler is entitled to five (5) minutes, which is not deducted from the injured wrestler’s previous injury time allowance.
**HEAD/NECK/CERVICAL COLUMN**

**RULE 5-28-6**

- A second occurrence of injury to the head and neck involving cervical column and/or central nervous system in the same match shall require the wrestler to default the match.

**Rationale:**
Editorial.
The head coach has the obligation to ensure that each wrestler is properly equipped and in proper uniform. Furthermore, he or she is the adult who is responsible that each wrestler’s skin, nails and hair are suitable and compliant for competition. Regarding the uniform and wrestler’s appearance, we are experiencing modesty challenges which reflect negatively on the sport. Both genders shall wear suitable undergarments that completely covers their buttocks and groin area.
Especially, when the school-issued uniform is light-colored or white; once it becomes wet from perspiration, the uniform can become transparent and without the proper undergarment, it makes the wrestler feel self-conscious and anyone around the area feeling uncomfortable. We are encouraged that wrestling is inviting to so many girls, however, we have to ensure that their breasts are completely covered and supported for the vigorous rigors of interscholastic wrestling.
Forcing an opponent off the mat (PlayPic A) or fleeing the mat to avoid wrestling (PlayPic B) are considered stalling and must be penalized.
Wrestling is an aggressive endeavor and should be coached and executed in that manner. It is expected that wrestlers stay inbounds and compete. There is no passive wrestling. There are no provisions in the rules to allow a wrestler to rest.
STALLING

Backing off the mat out bounds, pushing or pulling the opponent out of bounds, hands locked around leg of an opponent without the intent of taking him or her down or preventing the opponent from scoring is considered stalling. The referee should be firm and consistent in enforcing the letter and spirit of the rule.
Two injury time-outs that do not exceed one minute, 30 seconds are allowed per match.
If a contestant is injured as a result of an illegal hold/maneuver such as a slam, recovery time is not deducted from the injured contestant’s injury-time allowance.
Concussion Evaluation Time Extension

We have modified the injury time-out to incorporate more time to evaluate any head, neck, cervical column and/or nervous system. When an appropriate health-care professional is present, they have the authorization to extend the time to evaluate the wrestler’s condition to a maximum time limit of five (5) minutes. If a subsequent similar injury occurs during the same match, then the injured wrestler shall default the match. When this provision is used, the time consumed for evaluation of the injury shall not affect time used or available for other types of injuries. Recovery and blood time are not extended under this new rule.
Contestants are expected to exhibit proper sporting behavior before, during and after matches, whether engaging with referees or opponents. Referees must penalize improper behavior.
Sportsmanship Enforcement

Education-based athletics plays a tremendous role in the development of our young people. Each person associated with high school wrestling is responsible to teach, model, support and administer good sportsmanship. Without good sportsmanship, we lose everything we are trying to accomplish, and the young person is failed and let down by the very same adults that he/she trusts. Coaches should promote good sportsmanship in their coaching method and being an appropriate role model. The referee shall enforce our sportsmanship rules, from opening handshakes to make stalling or fleeing the mat calls.
The lessons learned on the competition mat are the supports and underpinnings of developing a young person into a conscientious and responsible adult. Finally, the wrestler is ultimately responsible for his or her behavior and decorum. To gain a victory by using poor sportsmanlike moves or techniques only masks the temporary exhilaration of the win. The success becomes hollow and you will eventually lose the joy of competing; which is not the purpose of high school athletics. Working collectively by promoting good sportsmanship, we can increase the number of opportunities for more people to participate in the sport at various levels of engagement.
Proper hydration prevents a wrestler from being weighed in at a “lower than normal” weight and will thus certified to wrestle at a potentially unsafe weight.
Importance of Hydration with body fat assessment

Assessing hydration status prior to body composition testing is the cornerstone of establishing body fat percentage, fat free mass, and a healthy minimum wrestling weight. Studies show that dehydration may significantly overestimate the percentage of body fat when assessing with skin calipers, bioelectrical impedance, and the BodPod.
There is also no evidence regarding the accuracy of ultrasound testing when determining body composition in dehydrated individuals. In addition to concerns regarding reliability of body fat percentage measurements, it is essential to weigh the wrestler in a well-hydrated state to ensure that you are beginning your minimum weight calculation from a safe and healthy weight.

If the wrestler is dehydrated when weighed, then that wrestler is starting from a “lower than normal” weight and will thus be certified to wrestle at a potentially unsafe weight. While it is recognized that there may be some difficulties in obtaining a urine sample, hydration testing prior to weight certification is vital to the health and safety of the wrestler.
OFFICIAL SIGNAL #28

- Tapping the front of the head with a balled-up fist of either hand to indicate that the five (5) minute Head/Neck/Cervical Column Evaluation time is to begin.

**Rationale:**
To support the new rule change to indicate that Head/Neck/Cervical Column evaluation time has begun. Recovery and blood time are not extended under this new rule.
SPORTS-SPECIFIC OFFICIATING COURSES
WWW.NFHSLEARN.COM

- Introduction to mechanics and techniques used in each sport
- Ideal for new officials or those in first few years of officiating
- 30-45 minutes to complete
- Topics vary based on the needs of the officials in the sport
- NFHS Officials Association members cost is $10
- Non-members - course is $20
- API available to state associations to collect results
